While the information contained herein has been prepared in good faith, neither the Company nor any of its shareholders, directors, officers, agents, employees or advisers give, have given or have authority to give, any representations or warranties (express or implied) as to, or in relation to, the accuracy, reliability or completeness of the information in this Presentation, or any revision thereof, or of any other written or oral information made or to be made available to any interested party or its advisers and liability therefore is expressly disclaimed.

Accordingly, neither the Company nor any of its shareholders, directors, officers, agents, employees or advisers take any responsibility for, or will accept any liability whether direct or indirect, express or implied, contractual, tortious, statutory or otherwise, in respect of, the accuracy or completeness of such information or for any of the opinions contained herein or for any errors, omissions or misstatements or for any loss, howsoever arising, from the use of this Presentation.

Neither the issue of this Presentation nor any part of its contents is to be taken as any form of commitment on the part of the Company to proceed with any transaction, where applicable. In no circumstances will the Company be responsible for any costs, losses or expenses incurred in connection with any appraisal or investigation of the Company. In furnishing this Presentation, the Company does not undertake or agree to any obligation to provide the recipient with access to any additional information or to update this Presentation or to correct any inaccuracies in, or omissions from, this Presentation which may become apparent.

This Presentation should not be considered as the giving of investment advice by the Company or any of its shareholders, directors, officers, agents, employees or advisers. In particular, this Presentation does not constitute an offer or invitation to subscribe for or purchase any securities and neither this Presentation nor anything contained herein shall form the basis of any contract or commitment whatsoever. Each party to whom this Presentation is made available must make its own independent assessment of the Company after making such investigations and taking such advice as may be deemed necessary. In particular, any estimates or projections or opinions contained herein necessarily involve significant elements of subjective judgment, analysis and assumptions and each recipient should satisfy itself in relation to such matters.

Forward Looking Statements

This Presentation contains "forward looking information" which may include, but is not limited to, statements with respect to the future financial or operating performance of the Company, its subsidiaries and its projects, the future price of metals, the estimation of ore reserves and resources, the conversion of estimated resources into reserves, the realisation of ore reserve estimates, the timing and amount of estimated future production, costs of production, capital, operating and exploration expenditures, costs and timing of the development of new deposits, costs and timing of future exploration, requirements for additional capital, government regulation of mining operations, environmental risks, reclamation expenses, title disputes or claims, limitations of insurance coverage and the timing and possible outcome of pending litigation and regulatory matters.

Forward looking statements involve known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements of the Company and/or its subsidiaries to be materially different from any future results, performance or achievements expressed or implied by the forward looking statements.

Such factors include, among others, general business, economic, competitive, political and social uncertainties; the actual results of current exploration activities; actual results of reclamation activities; conclusions of economic evaluations; changes in project parameters as plans continue to be refined; future prices of metals; the future costs of capital to the Company; possible variations of ore grade or recovery rates; failure of plant, equipment or processes to operate as anticipated; accidents, labour disputes and other risks of the mining industry; political instability, terrorist attacks, insurrection or war; delays in obtaining future governmental approvals or financing or in the completion of development or construction activities, as well as those factors discussed in the section entitled "Risk Factors" in the Company's annual information form.

Although the Company has attempted to identify important factors that could cause actual actions, events or results to differ materially from those described in forward looking statements, there may be other factors that cause actions, events or results to differ from those anticipated, estimated or intended. Forward looking statements contained herein are made as of the date of this Presentation and the Company disclaims any obligation to update any forward looking statements, whether as a result of new information, future events or results or otherwise.

There can be no assurance that forward looking statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward looking statements.

Market and Industry Data

This Presentation also contains or references certain market, industry and peer group data which is based upon information from independent industry publications, market research, analyst reports and surveys and other publicly available sources. Although the Company believes these sources to be generally reliable, such information is subject to interpretation and cannot be verified with complete certainty due to limits on the availability and reliability of raw data, the voluntary nature of the data gathering process and other inherent limitations and uncertainties. The Company has not independently verified any of the data from third party sources referred to in this presentation and accordingly, the accuracy and completeness of such data is not guaranteed.

Use of Non-IFRS Financial Measures

This Presentation refers to certain non-IFRS measures such as EBITDA, operating cash flows before working capital changes, cash costs, total cash costs, all-in sustaining costs and net debt. However, these performance measures are not measures calculated in accordance with IFRS, do not have any standardized meaning prescribed by IFRS and therefore may not be comparable to similar measures presented by other issuers. These non-IFRS measures are furnished to provide additional information only, have limitations as analytical tools and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS.

Disclaimer: Technical Disclosure

Technical Disclosure – Proyecto Riotinto

Mineral Resources and Ore Reserves for the Cerro Colorado and San Dionisio deposits (stockwork material) are effective 30 June 2025 and were prepared by SRK Consulting (UK) Limited. The Reporting Standard adopted for reporting of the Ore Reserve estimate for the Cerro Colorado and San Dionisio combined open pit operation is that defined by the terms and definitions given in The 2012 Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves as published by the Joint Ore Reserves Committee of the Australasian Institute of Mining and Metallurgy, Australian Institute of Geoscientists and Minerals Council of Australia (the JORC Code (2012)). The JORC Code (2012) is aligned with the Committee for Mineral Reserves International Reporting Standards (CRIRSCO) reporting template.

Unless otherwise noted, all scientific and technical information relating to Proyecto Riotinto is based on and derived from a Competent Persons Report (CPR) entitled "An Independent Competent Persons Report on the Mineral Assets of Atalaya Mining Plc" and issued on 22 November 2023, prepared by Guillermo Dante Ramírez Rodríguez (PhD, MMSA QP), Kira Johnson (MMSA QP) and Jaye Pickarts (PE, MMSA QP) of Tetra Tech, each of whom are "Qualified Persons" as defined in the Canadian National Instrument 43-101 – Standards of Disclosure for Mineral Project ("NI 43-101"). The information contained herein is subject to all of the assumptions, qualifications and procedures set out in the CPR and reference should be made to the full details of the CPR.

Technical Disclosure – Riotinto PEA

Unless otherwise noted, the PEA for Riotinto was prepared by Tetra Tech in accordance with CIM guidelines and with Canadian regulatory requirements set out in National Instrument 43-101 Standards of Disclosure for Mineral Projects ("NI 43-101"). The report was prepared by Tetra Tech Qualified Persons Dr. Guillermo Dante Ramírez-Rodríguez, PhD, MMSAQP, Jaye Pickarts, MMSA QP, and Ms. Kira Lyn Johnson, MMSAQP, who are Qualified Persons as defined under NI 43-101, and are independent of the Company.

Technical Disclosure – Proyecto Touro

Unless otherwise noted, all scientific and technical information relating to Proyecto Touro is based on and derived from a technical report entitled "Technical Report On the Mineral Resources and Reserves of the Touro Copper Project" dated April 2018, prepared by Alan C. Noble, P.E. of Ore Reserves Engineering, in association with William Rose, P.E., WLR Consulting, Inc. and Jay T Pickarts, P.E. (the "Touro Technical Report"), each of whom are "Qualified Persons" as defined in the Canadian National Instrument 43-101 – Standards of Disclosure for Mineral Project ("NI 43-101"). The information contained herein is subject to all of the assumptions, qualifications and procedures set out in the Touro Technical Report and reference should be made to the full details of the Touro Technical Report.

Technical Disclosure – Proyecto Masa Valverde

Unless otherwise noted, all scientific and technical information relating to Proyecto Masa Valverde is based on and derived from a technical report entitled "Mineral Resource Evaluation of Proyecto Masa Valverde, Huelva Province, Spain" dated 31 March 2022, prepared by CSA Global and John Barry, M.Sc., M.B.A, P.Geo, FSEG and Galen White, B.Sc. (Hons), FAusIMM (the "PMV Technical Report"), each of whom are "Qualified Persons" as defined in the Canadian National Instrument 43-101 – Standards of Disclosure for Mineral Project ("NI 43-101"). The information contained herein is subject to all of the assumptions, qualifications and procedures set out in the PMV Technical Report and reference should be made to the full details of the PMV Technical Report.

Technical Disclosure – Tharsis Mining, S.L.

Unless otherwise noted, all scientific and technical information relating to the Tharsis Project and La Zarza Project are based on technical reports prepared for Tharsis Mining, S.L. by CSA Global and dated 23 June 2023 and 8 December 2023, respectively.

Q3 and YTD 2026 Financial Results

Review of Q3 and YTD 2026

Record quarterly and nine-month EBITDA & on track to achieve FY2026 guidance

Operating

- Copper production of 14.0 kt in Q3 2026 and 37.4 kt in YTD 2026
- AISC of US$3.34/lb in Q3 2026 and US$3.11/lb in YTD 2026, which is trending well despite the impact of geopolitical conflicts on the prices of key consumables
- FY2026 guidance maintained: 50 – 54 kt copper (low end) at US$2.60 – 2.90/lb Cash Costs and US$3.10 – 3.40/lb AISC

Financial

- EBITDA of €90.1m in Q3 2026 and €216.3m in YTD 2026: new quarterly and nine-month records
- Key Q3 2026 investments: San Dionisio area (€10.2m), Cerro Colorado stripping (€5.1m)
- Free cash flow of €37.2m in Q3 2026 and €95.8m in YTD 2026[1]
- Growing net cash position of €342.1m as of 30 September 2026, despite an increase in receivables during the quarter

Corporate

- All resolutions put to Atalaya's 2026 AGM were passed by the requisite majority
- Acquired ~7.3% of Lara Exploration for C$13.5m
- Completed £130m equity offering to support development of Atalaya's copper growth pipeline
- *Acquired Tharsis Mining, which owns the past-producing Tharsis and La Zarza projects located west of Riotinto (11 November 2026)*

Assets

- Touro: environmental impact statement ("DIA") is nearing completion
- San Dionisio: 3.1 Mt of waste mined in Q3 2026; power line relocation is delayed
- Riotinto polymetallic circuit: progressed engineering works
- Masa Valverde: start of access ramp development is expected to begin in the coming weeks
- E-LIX: During Q3 2026, produced upgraded saleable copper concentrates and zinc precipitates

Sustainability

- Fundación Atalaya continued its support of initiatives in local infrastructure, education, environmental conservation, sports and culture
- Health and safety performance: continued improvement in Q3 2026 vs. prior quarters
- "Safety Points" campaign is underway to raise awareness and reinforce safe behaviours by employees and contractors

- Q3 2026 costs were impacted by higher prices for diesel, explosives and electricity, as a result of ongoing geopolitical conflicts
  - Lower silver credits were partly impacted by an unfavourable settlement adjustment for prior silver sales
- YTD 2026 cost performance remains consistent with FY2026 guidance
- Ongoing capitalised stripping costs at Cerro Colorado are included in AISC
- EUR/USD FX rate for YTD 2026 was unfavourable vs. comparative period

1. For the Cerro Colorado pit only; San Dionisio stripping costs are excluded from AISC

AISC Benchmarking

Note: Peers that do not disclose AISC include Central Asia Metals, Ero Copper, Sandfire and Trekor

2026 Guidance

Production, Cash Costs and AISC guidance are unchanged

- Production
  - Achieved strong production in Q3 2026
  - Prior guidance is unchanged, with production expected at the low end of the original guidance ranges (copper: 50 – 54 kt; silver: 0.9 – 1.1 Moz)
- Costs
  - Ongoing geopolitical conflicts continue to contribute to higher prices for key consumables, such as diesel, explosives and electricity
  - YTD 2026 performance has been consistent with FY2026 guidance ranges
  - No change to guidance
- Non-sustaining capital investments
  - No change to guidance
- Exploration and other project expenses
  - Upwards revision to guidance
