ATALAYA RIOTINTO

Atalaya Riotinto Minera is a Spanish company belonging to the Atalaya Mining group, dedicated to the extraction and processing of minerals to produce copper concentrate at the historic Riotinto deposit in the Cuenca Minera area of Huelva.

ENVIRONMENTAL POLICY

The management of Atalaya Riotinto Minera conducts its operations under the principle of Sustainability, seeking to have a positive impact on its environmental, social and cultural surroundings. In this regard, the company works continuously to improve its performance in accordance with this policy, the basic principles of which are:

01/ To comply with all applicable legislation, regulations and other environmental commitments that the company assumes and which are relevant to its operations.

02/ To promote knowledge of the environmental aspects of its operations to achieve continuous improvement in the field of environmental protection.

03/ To establish all necessary measures to prevent pollution and ensure the efficient use of natural resources by implementing Best Available Techniques whenever possible, especially for water, an essential resource for our production process and for the environment in which we operate. Atalaya Riotinto Minera's Environmental Management System operates within the sustainability governance framework established by the Atalaya Mining Group.

04/ To establish the necessary mechanisms to prevent situations that may impact the environment by implementing suitable risk assessment and management.

05/ To raise awareness and train employees and contractors in environmental issues, encouraging all work be carried out in an environmentally friendly manner.

06/ To protect, preserve and defend the existing historical heritage as an essential part of the company's commitment to society.

07/ To encourage continuous improvement by establishing regularly-reviewed environmental objectives in line with this Policy.

08/ To inform everybody working for or on behalf of the organisation, including contractors working on the premises, of the contents of this policy.

09/ To maintain a preventive approach to environmental performance, integrating the fight against climate change into company strategy and incorporating resilience and adaptation as part of our continuous improvement.

10/ Identify and address environmental deviations, incidents, and nonconformities through appropriate corrective actions, addressing their root causes, preventing their recurrence, and applying the lessons learned to drive continuous improvement in environmental performance.

Based on its commitment to sustainable mining operations, the management of Atalaya Riotinto Minera assumes responsibility for implementing, documenting and maintaining an Environmental Management System as a basic tool for executing the provisions established in this Policy.

Every company employee or collaborator must assume their responsibility within the Environmental Management System and incorporate environmental protection into all their actions as an integral condition of their duties.
